Subject: Qwest's Parking Assets Activities

All,

If you recall, during last week's meetings with Touch America, Mike Meldahl, President and COO of Touch America, mentioned how Qwest did not truly divest its in-region, interLATA assets but merely parked them pending 271 authority. In that regard, we thought you would find useful the attached list of those parking activities. (Although they are a matter of public record, we will file an ex parte notice of this communication.)
